ANNOUNCEMENT.

In making this, our first public sale, we have aimed to offer a class of cattle that will maintain the reputation of the long established herds from which ours has sprung. While we are young men, we are not novices in breeding high-class Short-Horns, having been interested in the business from our youth up. We took up the business where our fathers, F. Bellows and J. B. Robinson, left off and have endeavored to continue along the lines adopted by those pioneers.

It has been our chief aim to breed a class of cattle that will commend themselves to practical breeders, farmers and feeders because of their combined qualities of size, constitution, breed, character and quality. The cattle we are putting into this sale are of the "rent paying" sort. They have never been pampered, having been grown and handled in the most natural way; neither have they been dwarfed or stunted and, as a lot, we confidently believe they should prove, in every way, satisfactory and profitable to those who buy them.

The Short-Horn is a time-tried breed. They are not an experiment and when backed by individual merit and good reliable breeding, have no superior for the farmer, feeder and grower of cattle for commercial purposes. They are the greatest universal improver; were never more popular than now and the future holds great promise for those who judiciously lay the foundation for new herds or add to already established herds. With this faith we are in the business to stay and in submitting this draft from our herds to the public, we guarantee to cheerfully accept such prices as those who attend the sale may see fit to offer. We further guarantee that every animal will be sold upon its merits without protection or by-bid of any sort and that YOUR PRICE WILL BE OURS.

The pedigrees of the cattle given herewith show them to be of the most approved strains and since the four top crosses are of more real importance than all of the balance of the pedigree in estimating the individual merit and value of an animal, we invite especial attention to that feature of the breeding of these cattle as will be fully revealed by a careful study of the foot notes appended to each pedigree.

THE BELLOWS CONSIGNMENT.

The draft from the Parkdale herd consists of eighteen bulls, including the grandly bred three year old Scotch bull, Royal Prince 4th, and a prime

lot of young bulls from eight to sixteen months. There are twenty four females, several with calves at foot by Royal Prince 4th, others due to calve soon and all of proper age are bred to Royal Prince 4th. Not a shy or doubtful breeder in the lot.

THE ROBINSON CONSIGNMENT.

The drafts from the Fairport herd consists of twenty five head of which ten are Canadian bred females, selected and imported from some of the leading herds of the Dominion. Four are from the herd of J. M. Gardhouse, from which came the champion St. Valentine. Three of the four are out of cows sired by Imp. Guardsman, the sire of St. Valentine. Two are from the extensive importers, John Miller & Sons. These are pure Scotch sired by imported bulls. One is from the herd of the veteran importer, J. I. Davidson. Three head are from the herd of John Davidson, and two from John Anson, who used Mr. Davidson's bulls. Two of the Canadian bred heifers are sired by Sittyton Hero 1st, prize bull at Toronto Industrial Exposition last year. Of the domestic bred animals, ten are descendants from the cow, Dolly Dixon 2d, one of the foundation cows of the Fairport herd. She was bred in Kentucky and sired by the \$12,000 bull 3d Duke of Oneida, the highest priced bull in the famous New York Mills sale. The Fairport herd now has on its private herd register, over two hundred animals that are direct descendants of Dolly Dixon 2d since 1880, not counting progeny of any of the bulls. The females of suitable age will be bred to the pure Cruickshank Violet Galahad 139816, bred by H. C. Duncan.

Breeding list furnished on day of sale.

The cattle will be at the sale pavillion stables at South Omaha for inspection a few days in advance of the sale. The cattle will be delivered on board the cars free, but become the property of buyer as soon as bid off.

TERMS:—Cash, unless arrangement is made with party to sale owning the animal. Anyone wanting accommodation should arrange with the seller before the animal is sold.

Certified pedigree from the secretary of the American Short-Horn Breeders Association will be delivered with every animal.

The cuts appearing in this catalogue will go to the buyers of the animals.

Sale will commence promptly at 12:30 p. m.

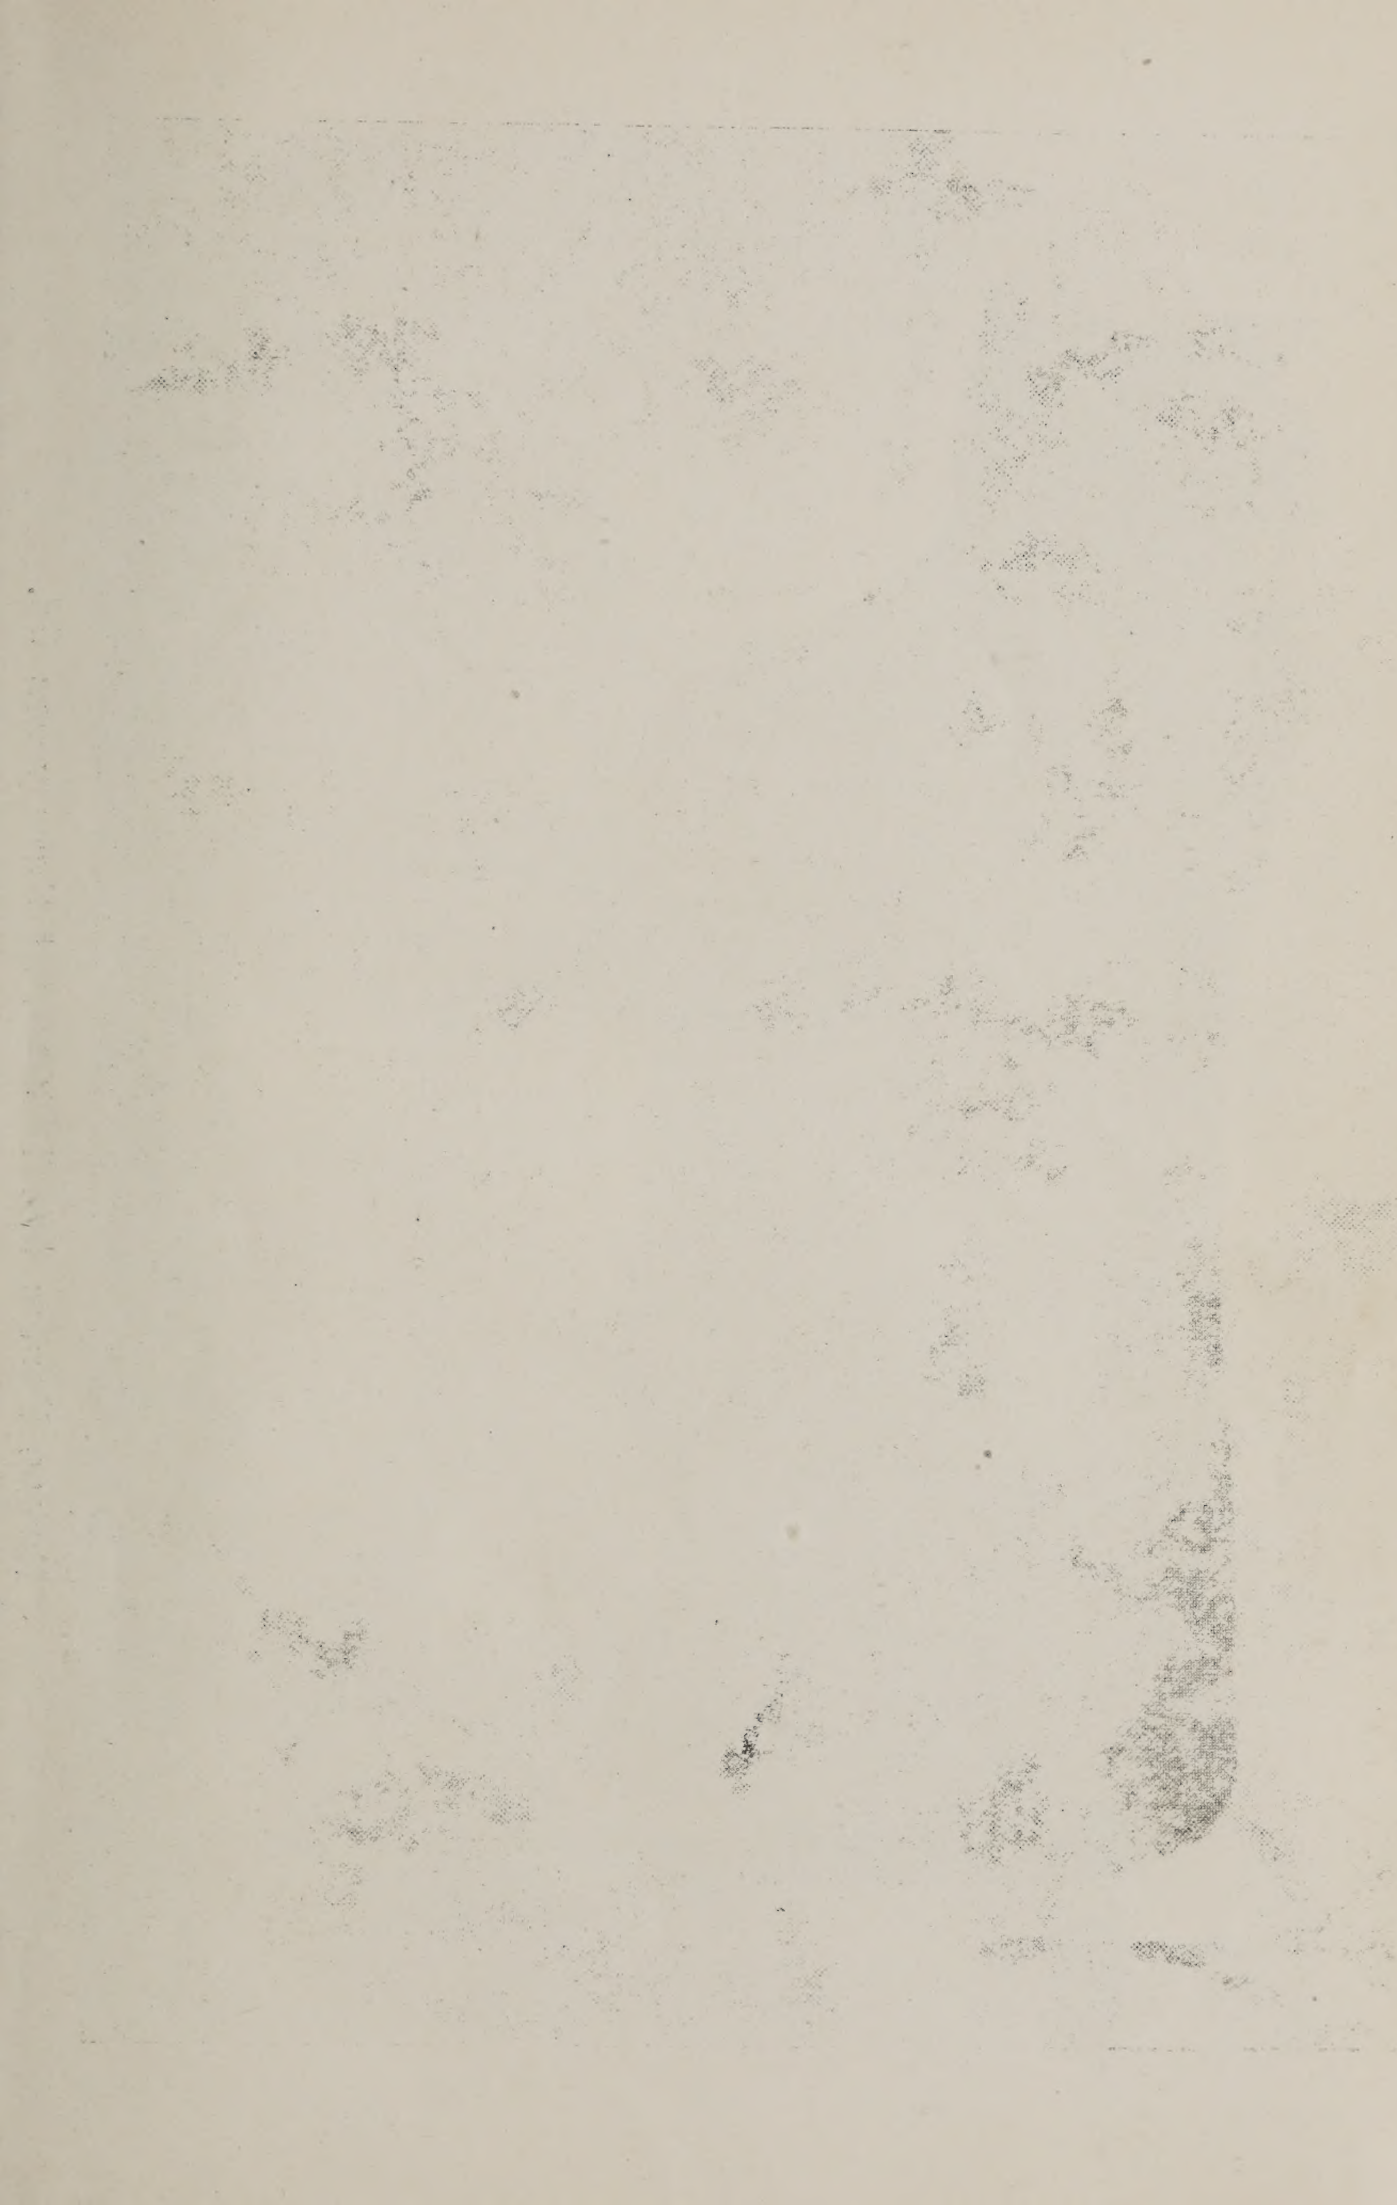

Bids can be sent to the auctioneers, care Clay Robinson, South Omaha, or to Clay Robinson & Co.

IMP. TUBEROSE 2D, bred by J. Stephenson in England, imported by Ambrose Stephens of New York. She came from the oldest line of blood recorded in the Herd Book, and the off-spring from her have proved most excellent cattle. The above is one of the very best Princess pedigrees to be had at this time. The noted bull, Belvedere (1706), sire of Mr. Bates' Duke of Northumberland, was of this Princess blood. Four cows of this family sold at Chicago, a few years back, at public sale, for an average of over \$3,000 each.

YOUNG EMPEROR, a Cruickshank bull of wonderful finish and scale, weighing in fair flesh 2500 pounds. Got by the Secret bull, Imp. Scotchman (105418), out of Red Empress, by Imp. Red Emperor (51958), Cora 2d by Baron Napier 49913, Caroline by Royal Barmpton (32296), to Imp. Columbia by Lord Lancaster (26666). From Caroline sprang one of the best families of Cruickshank cattle in America.

The fact that Mr. Cruickshank owned and bred this family for a period of over fifty years is sufficient evidence that he considered them among the best in the Aberdeenshire herd.

CRYSTAL WATERLOO, Bates' celebrated Waterloo tribe, was by Winsome Duke 3d 72209, out of Imp. Waterloo Duchess 4th. (Vol. 26, p. 1218), by Rowfant Duke of Oxford (43926), Imp. During the late great depression in Shorthorn values, Col. Vaile sold several of this family, both males and females, at from \$500 to \$1000 each. Crystal Waterloo was purchased from Col. Vaile in 1890 and used on the Crystal Springs Herd for several years.

IMP. YOUNG PHYLLIS—(Vol. 3, p. 561, E. H. B.)—by Fairfax (1023), a roan of September 11, 1831, bred by the Earl of Carlisle, Castle Howard, Yorkshire, England, was imported in 1834, with the Ohio Company's cattle, for Edwin J. Harness of Ross county, Ohio. From him she passed into the hands of Isaac Vanmeter and Isaac Cunningham of Clark county, Kentucky, in whose families they were successfully bred for many years, and, from thence, the blood has been distributed till scarcely a herd of well bred Short-Horns exists in the country that has not the blood of Young Phyllis. This family, known in England as the Delicacy tribe, traces through 100 years to the earliest records, and, in this country, has been noted for great individual excellence, as well as for careful breeding, many fine show animals having been bred therefrom, such as Pickrell's Baron Lewis, Vanmeter's Clarendon, Dick Taylor, Airdrie Duke, etc.

He was a bull of substance and wonderful fleshing qualities, and as a uniform breeder of high class stock had few equals. That his blood is breeding on is evidenced by the high character and quality of his descendants, even to the third generation. He was got by the Cruickshank bull, Canada's Pride 2d, by Imp. Aberdeen Champion, by Barmpton, out of the historic producing cow, Caroline, by Royal Barmpton.

IMP. YOUNG PHYLLIS—(Vol. 3, p. 561, E. H. B.)—by Fairfax (1023), a roan of September 11, 1831, bred by the Earl of Carlisle, Castle Howard, Yorkshire, England, was imported in 1834, with the Ohio Company's cattle, for Edwin J. Harness of Ross county, Ohio. From him she passed into the hands of Isaac Vanmeter and Isaac Cunningham of Clark county, Kentucky, in whose families they were successfully bred for many years, and, from thence, the blood has been distributed till scarcely a herd of well bred Short-Horns exists in the country that has not the blood of Young Phyllis. This family, known in England as the Delicacy tribe, traces through 100 years to the earliest records, and, in this country, has been noted for great individual excellence, as well as for careful breeding, many fine show animals having been bred therefrom, such as Pickrell's Baron Lewis, Vanmeter's Clarendon, Dick Taylor, Airdrie Duke, etc.

ROYAL PRINCE 4TH, a pure Cruickshank, got by Victor Missy 2d 121471, sire of the first prize herd of the Iowa State fair in 1899, also won first on get of sire at same fair. The dam of Royal Prince 4th was by Imp. Spartan Hero 77932, second dam by Imp. Royal Duke of Pleasant Ridge 36889, 3d dam Imp. Princess Royal 6th of the same family which produced the famous show cow, Princess Alice.

COLUMBIAN LORD, pure Cruickshank of the Jesse tribe, was by Imp. Sovereign Lord 153700, out of Clara Miller, by Imp. Red Emperor 51958; Clara Glamis, by Imp. Lord Glamis 48192; Clarence, by Imp. Baron Surmise 45933, and so on to Imp. Columbia, by Lord Lancaster, own son of the celebrated Champion of England (17556).

VALLEY CHAMPION, a pure Cruickshank bull, bred and used by F Bellows & Sons. As a calf he was the champion winner over all beef breeds at the Iowa State Fair. He was a bull of substance and wonderful fleshing qualities, and as a uniform breeder of high class stock had few equals. That his blood is breeding on is evidenced by the high character and quality of his descendants, even to the third generation. He was got by the Cruickshank bull, Canada's Pride 2d, by Imp. Aberdeen Champion, by Barmpton, out of the historic producing cow, Caroline, by Royal Barmpton.
